

How to complete your inventory template

Group Name	Local Label Name	Accepted Values	Example	Required?
Listing Identity				
Variations	SKU	This attribute indicates the SKU number as assigned by the contributor	ABC123	Required
	Product Type	Select the appropriate product type that best suits the item	ACCESSORY	Required
	Listing Action	Specify the type of operation to be actioned on the data provided	(Default) Create or Replace	Optional
	Parentage Level	Specify whether a SKU is a parent or child	Parent	Optional
Product Identity	Parent SKU	The SKU of the parent item	ABC123	Conditionally Required
	Variation Theme Name	Specify the variation theme that the product will use. The theme's attributes must be populated for all items in the grouping.	COLOR	Conditionally Required

	Item Name	Provide a title for the item that may be customer facing	Adidas Blue Sneakers	Required
	Item Highlight	Provide product features or benefit driven phrases, not a full sentence. Information will appear only when the item name is under 75 characters. Do not repeat information already in the item name.	Breathable material	Recommended
	Brand Name	Provide the brand name of the product	Sony	Required
	Product Id Type	Select the type of external ID (barcode) type or ASIN that is being used to identify this product. If the product is exempt from external ID, select GTIN Exempt.	UPC	Required
	Product Id	Provide the corresponding product id value based on the type that was selected	714532191586	Conditionally Required

	Item Type Keyword	Item type keywords are used to place new ASINs in the appropriate place(s) within the graph. Select the most specific accurate term for optimal placement.	Fishing lures	Optional
	Package Level	Provide the package level of the item. Choose “Unit” when package hierarchy is not provided or applicable. Provide one “Unit” item for every package hierarchy.	Unit, Case	Optional
	Package Contains SKU Quantity	Provide the quantity of each unit, case, or pallet identified in Package Level.	1	Conditionally Required
	Package Contains SKU Identifier	Provide the SKU identifier of each unit, case or pallet identified in Package Level.	ABC123	Conditionally Required
	Model Number	Provide the manufacturer 's model number for the item	RXZER23	Conditionally Required

	Model Name	Specify the model name of the product as defined by the manufacturer or brand excluding item type, color, brand or size	MacBook Pro	Conditionally Required
	Manufacturer	Provide the company that manufactures the product.	Nike, Procter & Gamble	Conditionally Required
	UNSPSC Code	The UN specified purchasing/taxonomy code corresponding to the item	27876546	Optional
	National Stock Number	Provide the product's NSN identifier	850519-S01, 783360-S01	Optional
	Product Id Type	Select the type of external ID (barcode) type or ASIN that is being used to identify this product. If the product is exempt from external ID, select GTIN Exempt.	UPC	Required

Images	Product Id	Provide the corresponding product id value based on the type that was selected	714532191586	Conditionally Required
	Product Id Type	Select the type of external ID (barcode) type or ASIN that is being used to identify this product. If the product is exempt from external ID, select GTIN Exempt.	UPC	Required
	Product Id	Provide the corresponding product id value based on the type that was selected	714532191586	Conditionally Required
	Product Id Type	Select the type of external ID (barcode) type or ASIN that is being used to identify this product. If the product is exempt from external ID, select GTIN Exempt.	UPC	Required
	Product Id	Provide the corresponding product id value based on the type that was selected	714532191586	Conditionally Required
	Product Id Type	Select the type of external ID (barcode) type or ASIN that is being used to identify this product. If the product is exempt from external ID, select GTIN Exempt.	UPC	Required
	Product Id	Provide the corresponding product id value based on the type that was selected	714532191586	Conditionally Required

	Main Image URL	Provide the URL for your product's main image. This is the first image customers see on the detail page.	http://www.companyname.com/images/1250.main.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional

	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional

	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image URL	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional

	Swatch Image URL	The URL where an image of a color swatch from the product is located	http://www.companyname.com/images/1250.swatch.jpg	Optional
Product Details				
	Product Description	Provide a text description of the product. This information will appear in paragraph form on the detail page of your product. Include unique product features, product line details, and product specifications. Do not use all caps.	This summer, boots by Jette made from high quality suede leather are real gems. They visually highlight the craftsmanship and fine leather braid positioned at the top of the shaft	Required
	Bullet Point	Brief descriptive text, called out via a bullet point, regarding a specific aspect of the product. These display directly under or next to your product photo, it is useful to put interesting information in these fields. Do NOT use all caps or abbreviations. Please do NOT use for fabric content, care instructions or country as these are populated in different fields.	Breathable Leather Lining	Required

	Material	Specify the primary materials used for manufacturing the item	Plastic	Conditionally Required
	Number of Items	Provide the total number of identical items in the selling unit to the customer	5	Conditionally Required

	Item Package Quantity	Provide the number of packages sold as part of a single item. An ASIN selling 5 boxes of paperclips with 100 paperclips per box would have item package quantity = '5'	1	Optional
	Color	Provide the color of the product	Cranberry	Conditionally Required
	Size	Provide the size of the item	Extra Large	Conditionally Required
	Number of Pieces	Provide the number of pieces within the unit being sold to the customer	40	Conditionally Required

	Part Number	Provide the part number. For many products, this will be identical to the model number however some manufacturers distinguish part number from model number	RIV001	Optional
	Item Shape	Specify the shape of the item	Round	Conditionally Required
	Line Size	Provide the product's line or point size	0.5mm, 1.0mm	Conditionally Required
	Item Display Depth	Provide the numeric component of the physical depth of the product without packaging and fully assembled	2.75, 3.00	Optional

	Item Display Depth Unit	Select the corresponding unit	Inches	Optional
	Item Display Diameter	Provide the numeric component of the diameter of the product without packaging and fully assembled	2.75, 3.00	Optional
	Item Display Diameter Unit	Select the corresponding unit	Inches	Optional
	Item Display Height	Provide the numeric component of the height of the product without packaging and fully assembled	1.8	Optional

	Item Display Height Unit	Select the corresponding unit	Inches	Optional
	Item Display Length	Provide the numeric component of the length of the product without packaging and fully assembled	5.7	Optional
	Item Display Length Unit	Select the corresponding unit	Inches	Optional
	Item Display Width	Provide the numeric component of the width of the product without packaging and fully assembled	3.5	Optional

	Item Display Width Unit	Select the corresponding unit	Inches	Optional
	Orientation	Specify the orientation of the item	Forward Facing	Conditionally Required
	Unit Count	For products that are consumed by volume, weight, linear dimension, etc., provide the net quantity that would be shipped to a customer who orders one ASIN (e.g. 12 pack of 6 floz. bottles of water = 72, vs. a single 2 liter bottle = 2). For products consumed as individual units, provide the total number of units (pack of 12 pens = 12). For packed assortments of non-identical items, enter 1	72.0	Conditionally Required
	Unit Count Type	For items consumed by volume, weight, linear dimension etc., provide the unit of measure listed on the products. For products consumed as individual units, enter: count	Count, Gram	Conditionally Required

	Product Site Launch Date	Provide the date the product launches and should first be shown on the Amazon website (YYYY-MM-DD format). PSLD does not impact buyability or pre-order logic, it is used to indicate when a product will be visible and searchable on the Amazon website	2017-07-20	Optional
	League Name	Provide the league name associated with this product	NBA	Optional
	Team Name	Provide the sports team name associated with the product, indicating the official team affiliation represented on the item.	Seattle Seahawks	Conditionally Required
	Scent	Provide the branded name of the item's scent(s). If no branded scent name is available, provide the generic term for the item's scent(s).	Pure Coconut, Crystal Noir, Amber	Conditionally Required

	Blade Color	Provide the color of the item's blade	Black	Conditionally Required
	Fishing Hook Type	Provide the specific type of fishing hook, based on fishing techniques, target species, and environmental conditions.	Jig Hook	Conditionally Required
	Fishing Technique	Provide the fishing technique of the item	Spinning	Conditionally Required

	Point Style	Specify the point style of an item	Sharp	Conditionally Required
	Target Species	This attribute identifies the species of animal the item is to be used for.	Bass	Conditionally Required
	Line Weight	Provide the fishing line weight with the appropriate unit	5.0 pounds	Conditionally Required
	Item Length	Provide the length of the item in ready to use condition.	50.0	Conditionally Required

	Item Length Unit	Provide the unit of measure used to measure the item's length.	Inches, Centimeters	Conditionally Required
	Eye Color	Provide the color of the eyes if printed or painted on the head of the item.	Brown, Blue	Conditionally Required
	Number of Packs	Provide the count of inner packs included in an item. For a single pack or packed assortment of non-identical items, enter 1.	2	Recommended
	Set Name	Provide the manufacturer's official name for the product set. If no official name exists, summarize the type and number of its components.	Strata Ultimate Golf Club Set (16 Piece)	Conditionally Required

	Government Contract Name	Enter the name of your active government contract (e.g., NASA SEWP V). This helps surface your offers to government customers	NASA SEWP V	Conditionally Required
	Government Contract Number	Enter your active Government contract number (e.g., 47QTCA19D000C). This ensures products are recognized for federal procurement.	47QTCA19D000C	Conditionally Required
	Item Weight	Provide the item weight numeric value (not including the packaging)	30.0, 1.5	Conditionally Required
	Item Weight Unit	Provide the unit of measurement used to express the weight of the fishing hook, such as a standard unit for measuring how heavy the hook is.	Pounds, Grams	Conditionally Required

	Included Components	Specify the items that are included with this product	Camera Body	Conditionally Required
	Recommended Uses For Product	Specify the recommended uses for the product	Cycling	Recommended
	Item Diameter Decimal Value	Provide the diameter of the item as a decimal	1.25	Optional
	Item Diameter Unit	Select the unit of measure for Item Diameter. If a value is provided for Item Diameter, you must also enter the corresponding unit.	inches	Conditionally Required

	Line Size Unit	Provide a unit of measure for the product's line or point size	Millimeters	Recommended
	Fishing Line Type	Provide the type of fishing line	Braided	Conditionally Required
	Breaking Strength	Specify the Breaking Strength	40.0	Conditionally Required
	Breaking Strength Unit	Provide the corresponding unit used to designate the fishing line's maximum load capacity before breaking.	pounds	Conditionally Required

	Strand Type	Provide the configuration of strands that make up the fishing line, affecting its strength, handling, and performance.	Single, Double,Triple, Heavy Single	Conditionally Required
	Item Diameter	Provide the numerical measurement of the fishing line's thickness. The diameter affects the line's strength and visibility in water.	0.033	Conditionally Required
	Item Diameter Unit	Provide the unit of measure used to measure the item's diameter.	Inches, Centimeters	Conditionally Required
	Item Length End to End	Provide the length of the item in ready to use condition. The Length is measured from one end to the other.	16459.2	Conditionally Required

	Item Length Unit	Provide the unit of measure used to measure the item's length.	Inches, Centimeters	Conditionally Required
	Mounting Type	Provide the method by which the fishing rod holder attaches to a surface, indicating how it secures the rod in place.	Clevis	Conditionally Required
	Item Depth Front to Back	Provide the depth of the item from front to back when fully expanded and placed in the manner in which it is expected to be used.	17	Recommended
	Item Depth Unit	Provide the corresponding unit used to designate the item's depth.	Inches, Centimeters	Recommended

	Height Top to Bottom	Provide the height of the item from base to the top when fully expanded and placed in the manner in which it is expected to be used.	1	Recommended
	Item Height Unit	Provide the corresponding unit used to designate the item’s height.	Inches, Centimeters	Recommended
	Item Width Side to Side	Provide the width of the item from side to side when placed in the manner in which it is expected to be used.	2	Recommended
	Item Width Unit	Provide the corresponding unit used to designate the item’s width.	Inches, Centimeters	Recommended

	Department Name	Provide the gender/age for which this item is intended	Women's	Conditionally Required
	Is Product Expirable	Indicate whether the product expires or loses effectiveness over time. Set to Yes for expirable products, or No if product does not expire.	Yes, No	Conditionally Required
	Product Expiration Type	Provide the method used to determine the product's expiration date.	Expiration Date Required	Conditionally Required
	Fulfillment Center Shelf Life	Provide the total number of days the item may be stored before expiration.	180, 365	Conditionally Required

	Fulfillment Center Shelf Life Unit	Fulfillment center shelf life time is given in days.	Days	Conditionally Required
	Hand Orientation	Provide the hand orientation that the item is built for; left, right or both	Ambidextrous, Left	Conditionally Required
Offer				
	Skip Offer	Please indicate whether the offer should be skipped and a buyable offer should not be created. A value of "Yes", means no offer will be created.	Yes	Optional
	Item Condition	Provide the actual condition type of the product	New	Conditionally Required

	Offer Condition Note	Provide descriptive text explaining the actual condition of the item	Small dent in left side panel.	Optional
	List Price	Provide the list price for the product not including tax. List Price is the suggested retail price of a product as provided by a manufacturer, supplier, or seller. This is not the offering or cost price. If you are unable to provide a value, enter 0.	64	Conditionally Required
	Product Tax Code	Enter the product tax code supplied to you by Amazon.com	A_GEN_NOTAX	Optional
	Merchant Release Date	Provide the merchant release date using YYYY-MM-DD format	2017-07-20	Optional
	Maximum Order Quantity	Provide the maximum number of units of the item that can be purchased in a single order.	3	Optional

	Offering Can Be Gift Messaged	If you can print a gift message with the item indicate that here. If left blank, defaults to 'No'	Yes	Optional
	Is Gift Wrap Available	If you can gift wrap an item indicate that here. If left blank, defaults to 'No'	Yes	Optional
	Main Image Location	The URL where the main offer-specific image of the product is located	http://www.companyname.com/images/1250.offe r.jpg	Optional
	Other Image Location	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.oth er1.jpg	Optional

	Other Image Location	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional
	Other Image Location	The URL for additional images of your product. These images will be shown on the detail page when the customer clicks through to see other views associated with the product.	http://www.companyname.com/images/1250.other1.jpg	Optional

	Item Length	Provide the item length as a numeric value.	10	Recommended
	Item Length Unit	Select the unit of measure for Item Length. If a value is provided for Item Length, you must also enter the corresponding unit.	Inches	Recommended
	Item Width	Provide the item width as a numeric value.	2	Recommended

	Item Width Unit	Select the unit of measure for Item Width. If a value is provided for Item Width, you must also enter the corresponding unit.	Inches	Recommended
	Item Height	Provide the item height as a numeric value.	2.7	Recommended
	Item Height Unit	Select the unit of measure for Item Height. If a value is provided for Item Height, you must also enter the corresponding unit.	Inches	Recommended
	Item Package Length	Provide the package length as a numeric value.	10	Conditionally Required

	Package Length Unit	Select the unit of measure for Package Length. If a value is provided for Package Length, you must also enter the corresponding unit.	Inches	Conditionally Required
	Item Package Width	Provide the package width as a numeric value.	2	Conditionally Required
	Package Width Unit	Select the unit of measure for Package Width. If a value is provided for Package Width, you must also enter the corresponding unit.	Inches	Conditionally Required
	Item Package Height	Provide the package height as a numeric value.	2.7	Conditionally Required

Safety & Compliance	Package Height Unit	Select the unit of measure for Package Height. If a value is provided for Package Height, you must also enter the corresponding unit.	Inches	Conditionally Required
	Package Weight	This attribute represents the weight of the item plus the packaging. If your item is shipped to the customer in multiple packages, enter the dimensions of the heaviest package	0.65	Conditionally Required
	Package Weight Unit	Select the unit of measure for Package Weight. If a value is provided for Package Weight, you must also enter the corresponding unit.	Pounds	Conditionally Required
	Number of Boxes	Provide the number of boxes needed to ship the whole product to the customer	5	Conditionally Required

	Country of Origin	Select the product's country of origin	China	Required
	Warranty Description	Provide a description of the product's warranty	2 Year Manufacturer	Conditionally Required
	Are batteries required?	Select "yes" if batteries are required to power the item (or if the item is a battery) or "no" if they are not. Please note that an internal rechargeable battery is also considered a battery	Yes	Conditionally Required
	Are batteries included?	Select "yes" if batteries are contained in the product (e.g. batteries inside a pair of Bluetooth headphones) and/or included with the product (e.g. batteries packed separately with a camera), otherwise select "no"	Yes	Conditionally Required

	Battery Cell Composition	Select the chemical composition of the battery cell	NiMh	Conditionally Required
	Battery Cell Composition Other Than Listed	Provide the components of the item's battery cell that are not already listed under battery cell composition.	Silver Oxide (Ag ₂ O)	Conditionally Required
	Battery IEC Code	Provide the item's battery IEC code. IEC is standardized alphanumeric nomenclature based on battery size & type available on battery itself.	CR2320	Optional
	Battery Weight	Provide the total net weight (numeric value) of the batteries included. This is the weight of the standalone batteries not including packaging or the device it may be used in.	2.5	Conditionally Required

	Battery Weight Unit	Provide unit for battery weight	Grams	Conditionally Required
	Number of Batteries	Specify the number of batteries needed to power the item. If batteries are included with the item be sure to account for spare batteries provided	1, 4	Conditionally Required
	Battery Type	Provide battery type needed to power the item, including spares if included. Some options may be moved under other attribute eg. IEC code	12V	Conditionally Required
	Number of Lithium Metal Cells	Specify the total number of Lithium Metal cells in the product where the cell isn't contained in an encased battery (e.g. coin cells)	7	Conditionally Required

	Number of Lithium-ion Cells	Specify the total number of Lithium-ion cells in the product where the cell isn't contained in an encased battery. For example, an AA battery is considered a cell	7	Conditionally Required
	Lithium Battery Energy Content	Provide the total energy stored in the lithium batteries used to power the item, measured in Watt Hours.	2.6	Conditionally Required
	Lithium Battery Energy Content Unit	Select the corresponding unit	Watt Hours	Conditionally Required
	Lithium Battery Packaging	Select “in equipment” if the battery is contained in the item. Select “with equipment” if the battery is packed separately with the device it is meant to power. Select “only” if the product is a battery sold alone or with items it is not meant to power.	Batteries contained in equipment, Batteries packed with equipment, Batteries only	Conditionally Required

	Lithium Battery Weight	Provide the weight of lithium contained in the cell or battery as a numeric value	0.5, 0.03	Conditionally Required
	Lithium Battery Weight Unit	Select the corresponding weight unit	Grams	Conditionally Required
	Dangerous Goods Regulations	Provide the regulations that apply to the item if it is classified as a dangerous good, hazardous material, substance, or waste.	GHS, Storage, Transportation	Required
	GHS Class	Select the GHS Class of the product from the list of valid values if GHS is selected as the Dangerous Goods Regulation. GHS Class indicates the warning statement assigned by the GHS classification system.	Explosive	Conditionally Required

	Hazmat Aspect	Select the aspect or regulatory body used for the hazardous product information	UN Regulatory Id	Conditionally Required
	Hazmat	Provide hazmat information that is relevant to the product based on the aspect selected	UN1993	Conditionally Required
	Safety Data Sheet (SDS or MSDS) URL	Provide the web address for the Safety Data Sheet, containing essential safety information for potentially hazardous materials.	www.safetysheetsRus.com/hazardous_substance/msds.pdf	Conditionally Required
	Is This Product Subject To Buyer Age Restrictions	Provide whether the product is subject to buyer age restrictions. These can influence the purchase and/or delivery of the product.	Yes	Optional

	California Proposition 65 Warning Type	Select the warning type applicable to your product, if any. You certify that the warning provided satisfies legal requirements and that you'll remove a warning previously provided only if it is no longer legally required.	Furniture	Optional
	California Proposition 65 Chemical Name(s)	If you selected the Food, Furniture, or Chemical warning you must indicate a chemical(s). You certify that the chemical(s) satisfies legal requirements and that you'll remove a chemical previously provided only if it is no longer legally required.	Lead	Conditionally Required
	Pesticide Marking	Provide any pesticide marking on the item or packaging.	EPA Establishment Number	Optional
	Pesticide Registration Status	Provide a status whether the item requires registration and an associated registration number.	Product is not a pesticide or pesticide device, as defined under the U.S. Federal Insecticide, Fungicide, and Rodenticide Act.	Conditionally Required

	Pesticide Certification Number	Provide any pesticide certification number which corresponds with the marking type	138263	Conditionally Required
	Radio Frequency Emission & Authorization Status	Indicate whether this product is capable of emitting radio frequency energy, and if so, what type of FCC RF equipment authorization this product has.	Product has FCC ID	Optional
	FCC ID	If the device has an FCC ID, provide it.	2AFZZ-XMSF10G	Conditionally Required

	SDoC Contact Name	If the device has a Supplier's Declaration of Conformity, provide the name of the point of contact for the Responsible Party, as defined by the FCC.	John Doe	Conditionally Required
	SDoC Contact US Mailing Address	If the device has a Supplier's Declaration of Conformity, provide a US mailing address for the Responsible Party, as defined by the FCC.	500 Oak Street Chicago, IL 60707	Conditionally Required
	SDoC Contact Email Address	If the device has an SDoC, provide an e-mail address (in this field) or a US phone number (in the next field) for the Responsible Party, as defined by the FCC. If you provide a phone number in the next field, you may enter "N/A" in this field.	jdoe@example.eg	Conditionally Required

	SDOC Contact US Phone Number	If the device has an SDoC, provide a US phone number (in this field) or an e-mail address (in the prior field) for the Responsible Party, as defined by the FCC. If you provide an e-mail address in the prior field, you may enter "N/A" in this field.	777-767-1000	Conditionally Required
	Compliance Regulation Type	Select applicable regulation type	CDPR Pest Identification	Optional
	Regulatory Identification	Provide the regulatory identification associated with the regulation type.	1AB1331-121A	Optional

	Responsible Person's Email or Electronic Address	Provide the email or URL of the EU Responsible Person. If you've submitted this information for the brand before, use the same email or URL.	rsp-email@example.com	Optional
	Compliance Media Source Location (en_US, Application Guide)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Application Guide)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, ECGT - Bio-based & Biodegradable Claims - Substantiation Document)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, ECGT - Bio-based & Biodegradable Claims - Substantiation Document)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Certificate of Analysis)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Certificate of Analysis)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Certificate of Compliance)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Certificate of Compliance)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Compatibility Guide)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Compatibility Guide)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Data Act Transparency Declaration)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Data Act Transparency Declaration)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Emergency Use Authorization)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Emergency Use Authorization)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Emergency Use Authorization Amendment)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Emergency Use Authorization Amendment)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, ECGT - Energy Efficiency Claims - Substantiation Document)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, ECGT - Energy Efficiency Claims - Substantiation Document)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Installation Manual)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Installation Manual)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Instructions for Use)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Instructions for Use)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Patient Fact Sheet)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Patient Fact Sheet)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, ECGT - PFAS-Free Claims - Substantiation Document)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, ECGT - PFAS-Free Claims - Substantiation Document)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Product Certificate of Conformity)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Product Certificate of Conformity)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Provider Fact Sheet)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Provider Fact Sheet)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, ECGT - Recyclability Claims - Substantiation Document)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, ECGT - Recyclability Claims - Substantiation Document)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, ECGT - Durability & Repairability Claims - Substantiation Document)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, ECGT - Durability & Repairability Claims - Substantiation Document)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Repairability Index Calculation Sheet)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Repairability Index Calculation Sheet)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Safety Data Sheet)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Safety Data Sheet)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Safety Information)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Safety Information)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Specification Sheet)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Specification Sheet)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, Troubleshooting Guide)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Troubleshooting Guide)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, User Guide)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, User Guide)	http://example.eg/sds_1.pdf	Optional

	Compliance Media Source Location (en_US, User Manual)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, User Manual)	http://example.eg/sds_1.pdf	Optional
	Compliance Media Source Location (en_US, Warranty)	Provide the URL where your product document is stored. This must be a direct download link, not a link that opens the PDF in a browser. (en_US, Warranty)	http://example.eg/sds_1.pdf	Optional
	Safety Attestation	Check “yes” if your product doesn’t have any warning and safety information, as it can be used safely and as intended without it.	Yes	Optional

	Manufacturer’s Email or Electronic Address	Provide the email or URL of the manufacturer. If you've submitted this information for the brand before, use the same email or URL.	abc@example.com	Optional
	Has Multiple Battery Powered Components	Provide whether the item consits of more than one battery powered components.	Yes	Conditionally Required
	Ships Globally	Provide whether the item can be shipped globally by Amazon	Yes	Optional
	Contains Battery or Cell	Provide whether the item uses cells with a single electrochemical unit or batteries with multiple connected cells within a casing.	Battery	Conditionally Required

	Battery Contains free Unabsorbed Liquid	Provides certification that your battery meets transport regulations for free-flowing liquid: no unabsorbed liquid at 55°C & no leakage.	Yes	Conditionally Required
	Is Battery Non Spillable	Provides certification confirming your battery meets transport regulations for non-spillable status, including vibration and pressure tests	Yes	Conditionally Required
	Non-Lithium Battery Packaging	Provide "in equipment" for batteries installed in devices, "with equipment" for those packed separately with the device, and "only" for standalone batteries.	Batteries Only	Conditionally Required
	Has Replaceable Battery	Provide whether the item's battery is replaceable.	Yes	Optional

	Non-Lithium Battery Energy Content	Provide the item's energy content for non-lithium batteries. The attribute refers to the total amount of energy that a battery can store.	2.6	Optional
	Non-Lithium Battery Energy Content Unit	Provide unit of measure used to determine the total amount of energy that a battery can store.	Watt Hours	Optional
	Has Less than 30 Percent State of Charge	Provide whether the item's battery contains less than 30 percent charge during shipping.	Yes	Conditionally Required
	Battery Installation Device Type	Provide the item's battery installation type. Specifying whether a battery is installed in a vehicle, vessel, or not installed in any device.	Installed In Vessel	Conditionally Required

	Is OEM Sourced Product	Provide whether the item is directly sourced from the original equipment manufacturer (OEM).	Yes	Optional
	GHS Chemical H Code	Provide the GHS chemical hazard codes for the chemical substance/mixture in order to display warnings to customers.	H200	Optional
	BAA/TAA Regulation Compliance	Select BAA compliant (refer FAR 52.225-2); BAA compliant due to exception (refer FAR 25.103); TAA compliant (refer FAR 52.225-6)	Buy American Act Compliant (BAA)	Optional
	BAA TAA Compliance Acknowledgement	You acknowledge you are authorized to certify products as BAA/TAA compliant and will immediately update BAA/TAA status change to Amazon.	Yes	Conditionally Required

	TAA Compliant Country	Select the TAA country where products are manufactured or substantially transformed.	Canada	Conditionally Required
